13 CLIMATE ACTION

## CLIMATE ACTION: WHY IT MATTERS TO BUSINESSES

### What's the goal here?

Taking urgent action to tackle climate change and its impacts.

### Why?

Climate change is caused by human activities and is threatening the way we live and the future of our planet. By addressing climate change, we can build a sustainable world for everyone. But we need to act now.

### Are people's lives really being affected by climate change?

Yes. Severe weather and rising sea levels are affecting people and their property in developed and developing countries. From a small farmer in the Philippines to a businessman in London, climate change is affecting everyone, especially the poor and vulnerable, as well as marginalized groups like women, children, and the elderly.

In 2015,  
global  
investment  
in renewables  
attracted  
**\$286  
billion,**  
more than  
**twice**  
as much as  
fossil fuels.

## 12 largest business themes in a world economy heading for the Global Goals

Quelle: [Better Business Better World](#) (2017)

# Handlungsfelder

- Klimafreundliche Innovation/  
Produktentwicklung
- Energieeffizienz steigern
